DESIGN RESPONSE TABLE

- Building & structure design reflects natural topography and is complementary landscape character
- Minimal building footprint with lower ground floor sited along contour to minimise cut & fill
- Building height & scale does not dominate surrounding environment
- Building height below adjacent road level & dominant tree height
- Natural building colours & materials are complementary to the natural setting
- Private outdoor living area with solar aspect
- Car parking areas located along contour to follow topography & reduce visual intrusion
- East site entry utilises existing access pathway
- Rainwater collection, cross ventilation and fire shutters incorporated into design

The builder shall check and verify all dimensions and make all errors and omissions to the Designer. Do not scale the drawings. Drawings shall not be used for construction purposes and issued by the building designer for construction.
