Do you also participate in other programs/activities at this centre?	Please specify	Officer Response
Online	Environmental design	Yes	Facilities for indoor soccer, I did not see mention of disabled facilities	Not sure	No answer	No answer	Male	65-74	Panton Hill	No				Indoor soccer played on existing court space. Accessibility and compliance upgrades throughout building.
Online	Something is finally happening but not what is needed	Yes	Childcare playground is an important part of choosing this centre as Watermarc or Diamond Creek sports centre doesn't have outdoors. Someone should speak to the DVSFC childcare staff or had a look at Eltham Leisure Centre childcare playground	No	No one communicates with DVSFC staff on what works at centre	Toilets are needed in childcare. I didn't see that on that unreadable plan	Prefer not to say	Prefer not to say	Greensborough	Yes	Child care	Netball Health Club Group fitness Child care Virtual fitness		At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Online	No answer	Yes	No answer	No answer	No answer	No answer	Male	18-24	Templestowe Lower	Yes	Child care	No answer		
Online	I'm not happy that there will be no playground for the kids	Yes	I am disappointed that my family will not have access to the playground, one of the vital things in any child care program	Not sure	Lack of upgrades to child care facilities	There isnt sufficient storage or toilet facilities in child care	Male	35-44	Eltham North	Yes	Child care	Personal training		At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Online	The additional courts updated facility	Yes	Purpose built child care room and playground (which is essential to the stadium)	Yes	No answer	No answer	Female	45-54	Briar Hill	Yes	Child care	Health club membership		At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Online	The amount of courts and new toilets	Yes	As a parent I enjoy the great care of the child care staff have shown my children. My children like this centre especially the playground as we were at diamond creek community centre which has no playground. An accessible toilet in the childcare room would be great. Seating in the cafe, will there be enough.	No	Not with current plan as not all areas have been catered for. Like childcare and café. Its very hard to read the plan as the font size is so small and not clear.	I looked at watermarc gym before attending DVSFC and like the staff at DVSFC better and of course the childcare with playground	Female	25-34	Diamond Creek	Yes	Health club membership	Group fitness class personal training Child care Virtual fitness		At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Online	No answer	Yes	No answer	No answer	No answer	No answer	No answer	No answer	No answer	No answer				
Online	About time something was done	Yes	Group fitness room, childcare room with toilets, outdoor café seating	No	Missing items stated already. Work on what is needed first then plan. Building onto building without taking anything away ie. playground for childcare	Have a person talk to customers and staff currently at centre. Current paperwork not easy to read.	Female	45-54	Greensborough	Yes	Health club membership	Netball Health club membership Group fitness classes Personal training Child care Virtual fitness		At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.  Group fitness is provided within the concept plan. Council officers have met with stakeholders and Clublinks staff regularly throughout development of the masterplan.
Online	Additional basketball courts	Yes	Basketball office space	Yes	Modern, space, additional basketball courts, new and more required facilities, show court with good seating	No answer	Male	45-54	Doreen	Yes	Basketball	No answer		Basketball office space will be reviewed at the detailed design phase.
Online	It created the room that is desperately needed for basketball competitions that currently cannot run due to lack of space. A girls competition could be run on a Saturday instead of over 4 weekdays that start at 4pm. This is not possible for lots of families given regular business hours dont finish until 5.30pm so this format is currently not inclusive for youth girls sport.	Yes	A function area	Yes	It is multipurpose as quite a few different sports can use the same space and would now be accessible. It is not accessible in a practical sense in its current state.	No answer	Female	45-54	St Helena	Yes	Basketball	Basketball Group fitness		
Online	I love everything about the masterplan, the thing I like most is how many basketball courts there will be!	No	No answer	Yes	I think our areas needs a multi use place where everyone can be active and its really exciting to see these plans	No answer	Female	13-17	Plenty	Yes	Basketball	Basketball Health club membership		
Online	New 3 courts for basketball and disability access to stadium court side level plus renewed change rooms	Yes	DVBA able to run the kiosk given the huge number of users per annum	Not sure	Stadium is over 40 years old without any updates or significant refurbishment to reflect current users	We have approx 14.5 mil combined committed funds, just get on with the stadium updates	Male	45-54	Greensborough	Yes	Basketball	Basketball Health clubs membership Group fitness classes Other	Community meetings	Management and Operation Contract with Clublinks includes management of the Kiosk.
Online	I love the sound proofing it's a must	No answer	No answer	Yes	No answer	It would be geat if you could make the stadium climate controlled also. Its done at another Werribee stadium That's a great stadium	Female	35-44	Greensborough	Yes	Basketball	No answer		Air handling will be considered at detailed deign phase.

Submitted	What do you like most about the draft masterplan	Is there anything missing	Please tell us more	Do you think the masterplan will achieve the vision	Please tell us why	Please share any other comments	Gender	Age	Suburb/Township	Do you currently use the centre	What is the main program/activity that you usually participate in at the Centre?	Do you also participate in other programs/activities at this centre?	Please specify	Officer Response
Online	It creates a vision fo the next generation of users	No	No answer	Yes	Additional facilities, upgraded and accessible amenities, it looks as though the future community will be well catered for	No answer	Female	45-54	Eltham North	Yes	Health club membership	No answer		
Online	Amount of courts to be built. New toilets	Yes	Seating for café birthday party room/multi purpose room	No	It depends on how long it takes to build all stages	Childcare needs better/safer storage and toilets and my kids like the playground	Female	35-44	Greensborough	Yes	Netball	Childcare		A lounge area off the foyer can be used as a function space and birthday party room.
Online	New change facilities and more toilets. Health and wellness centre	Yes	From what I can see the plans the café doesn't seem to be any bigger. I would like to see it extended out the front alfresco style with a café menu. I like the health and wellness centre and hope there would be a Live for Life setup. Transport to the door of the gym would be helpful as no buses run along Civic Drive and if your a mum with small children, sick, frail, elderly it is very hard to get to the library council offices of gym unless you have someone to give you a lift. Not everyone drives a car.	Not sure	I hope so but the abovementioned would need to be addressed.	No answer	Female	65-74	No answer	yes	Health club membership	No answer		Kisok is being undertaken in Priority Works Package and provides a larger seating area with an opportunity for outdoor eating. Transport advocacy to be undertaken by Council to improve transport sustainability across the Shire.
Online	24/7 gym	Yes	A swimming pool would complete the centre	Not sure	A pool would complete the vision	No answer	Female	45-54	Greensborough	No				A swimming pool at this site is not required due to provision of aquatic facilities at Watermarc (Banyule), Diamond Creek and Eltham.
Online	Facility upgrades, accessibility enhancements, improved courts and gym facilities	Yes	The current plan doesn't seem to have an outside playground for the kids. (there is one there at the moment) So a Playground for the child Care Centre would be great. An outdoor area and playground for the children to enjoy. It's great to see the children playing outside in the sand pit, playing ball games, climbing. Purpose built child Care Room - Children's toilets (at the moment staff need to leave the room to take the children to the general toilets) - Nappy change area - office area.	Yes	No answer	No answer	Female	35-44	Greensborough	Yes	Child care	gym		At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Online	I love the idea of the gym becoming 24/7 - as a shift worker I find it hard to have to head straight from work to the gym after a long and tedious day or straight to gym before a long and tedious day! Having flexibility to go whenever you want is perfect!!	No	The added courts will be great for expanding the sporting community - especially the younger generations and getting them involved in sport!	Yes	The master plan seems very inclusive of the entire community	No answer	Female	18-24	Eltham North	Yes	Health club membership	Netball		
Online	24/7 gym access and gym upgrades. Also café developments	No	No answer	Yes	No answer	The gym needs to have larger floor space	Female	25-34	Greensborough	Yes	Health club membership	Netball, Group Fitness Classes		
Online	24hr gym. Also area is building 300 residences soon very nearby so this will cater to influx of new people in the area	Yes	More parking	Yes	Great hub for the community	No answer	Female	35-44	Greensborough	yes	Group Fitness Class	Health club membership, Child Care		
Online	Increasing the number of courts	No answer	No answer	Yes	A venue that can house a variety of sporting activities is very important	Do not see the need for a 24/7 gym operation as there are enough privately run venues that more than cater for this need	Male	45-54	Research	Yes	Basketball	Squash, Badminton		
Online	24/7 gym or earlier opening hours ASAP would be great. Being so far from the city a lot of people start their day early - gym opening at 5-5.30 would be ideal	No	No answer	Yes	No answer	No answer	Female	35-44	Greensborough	Yes	Health club membership	Group fitness class		
Drop box	New facilities, updated accessibility	Yes	Purpose built child care with childrens bathroom and changing facilities, playground accessible for indoor/outdoor play	Not sure	Is parking space for cars being considered - with regard to new housing in the area, new sports centre	Great to see some upgrades								At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.

Submitted	What do you like most about the draft masterplan	Is there anything missing	Please tell us more	Do you think the masterplan will achieve the vision	Please tell us why	Please share any other comments	Gender	Age	Suburb/Township	Do you currently use the centre	What is the main program/activity that you usually participate in at the Centre?	Do you also participate in other programs/activities at this centre?	Please specify	Officer Response
Drop box	Hooray it is underway - build it already. Additional courts - thank goodness. Aspirations to cater for disability sports. A more attractive entrance. Current sports, gym, group fitness and child care are retained.	Yes	Additional car park spaces. As yet there hasn't been consultation with child care staff. This aspect has the potential to grow in hours with gym membership and a major upgrade.	Yes	The vision can only be achieved by undertaking all 3 phases of the Masterplan. An outdoor play area for the young children in care is essential. Why should they miss out on practice at climbing, balancing and ball skills.	For some children this childrens centre is the sole play and education experience in a social setting with their peers each week. In many cases this is the first instance of children being left in care - other than family. Some members and regular sports participants have 1-3 children in care over a 5+ year period. I realise this care is secondary to the sporting services provided at DVSFC however the key factors that contribute to a quality centre must be provided ie a childrens toilet, an adult toilet. Storage sufficient to meet OHS standards, an admin area and a playground. I have been a member for approx 20 years and the gym is currently the best I've known. The vibe is a friendly inclusive one and I believe numerous members have remained loyal due to the sense of belonging and convenience of location for them. Consumers seeking a gym have many choices on offer. The appearance, staff, classes, equipment and convenience are all factors when deciding. A drastic upgrade with areas to serve all the current uses and multi purpose spaces then it must increase the overall viability moving forward. Thank you for listening to the people who know the building and have patiently been awaiting this moment.								At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Drop box	It will make the building more modern and appealing, more welcoming to customers - I have been a member since 2000 the renovation is long overdue. We need a playground for childcare.	Yes	Toilet for childcare, outdoor playground for childcare. The roof over basketball needs to be fixed or replaced as it leaks a lot. People fall over all the time on the water on the courts. Only a matter of time before people break bones.	Yes	Centre will be more accessible for everyone. More basketball courts and room for spectators.	We need a better lift. Need 24 hr gym. Need new gym equipment. Need a permanent room for childcare that includes a toilet.								At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements. Roof in existing court 1 to 4 has been repaired with sisalation works still to be undertaken.
Drop box	Improving facilities for all especially wheelchair/pram access - this is a must for a young family that come here.	Yes	A dedicated, larger childcare facility with toilet access within rooms and an outdoor area is a must. If this facility is not here or up to standard I would not travel from whittlesea to come here.	Not sure	Need to ensure all people and families are included in this plan. Toilets with better pram access would be essential.	The current childcare facility and in particular the staff are the major drawcard for us. However the rooms need to be upgraded and toilets within rooms I would think would be a must for child safety and ease of use. Outdoor areas provide better health for staff and kids.								At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Drop box	Improvements to the changing rooms 24/7 access for gym use more courts for sports teams (big demand)	Yes	A designated space for child care is a must. A toilet just for the child care area is also important. A playground would also be great to see.	Yes	The lift installation will improve access and is great to see. I just hope that the plan will be completed in its entirety. Huge improvements.									At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Drop box	That the centre is getting a very overdue renovation.	Yes	I cant see if there is an outdoor playground for the childcare or not, as this is one of the best features for my kids.	Not sure	I guess if all goes to plan and all money is raised, there is definitely a huge potential that it will.									At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Drop box	The inclusion of more courts is great - additional parking will be needed	Yes	The playground which is utilised by the occassional care is missing, if so much is being spent to make the facility better for the community please don't forget parents that use the occassional care program.	Not sure	Outside space for children to play is one of the best parts of occassional care - it cant be found anywhere else in Nillumbik for gym users. It must be kept.									At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Drop box	Absolute facelift. Thorough upgrades to toilet/shower/changerooms. 24/7 option for gym use. Improved kiosk, work space. Improved access to all levels. Hopefully an attractive entrance. More courts for team sports with huge demand. A red hot focus on DVSFC at last.	Yes	Spaces specifically for yoga/pilates (quiet spaces) a designated space for child care with a toilet, a playground and storage and admin spaces. Funding - Council must seek a loan and complete all 3 stages. I hope kiosk space allows for a deck outdoors.	Yes	It is already for multi-sport and recreation. Installation of lifts will assist greatly with Access. To achieve 'fit for purpose' the plan must be completed in its entirety. Flexibility and multi use can only be achieved with careful planning and discussion concerning what is needed by staff to achieve this.	For example staff need to set up child care area daily and pack away. Many items are stored above head height. At times 3 and 4 children need to be taken to the toilet - there are only 2 toilets on the level that are shared with kiosk and gym areas. Children are of toilet training age and it is important that they can be catered for allowing for accidents and privacy.								At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements. Council is actively seeking additional funding for this project from State and Federal Governments.
Dropbox at DCCC - submitted by a group of 8 walking members	Open spaces, group fitness rooms	Yes	Traffic control, maybe lights, designated path to carparks. More outdoor lighting for building and carpark leading to library	Yes	More outdoor spaces and eating area	Get a local walking group, more classes, new toilets and more showers. More toilets.								Traffic control and additional paths will be considered as part of the link to the Civic open space precinct.

Submitted	What do you like most about the draft masterplan	Is there anything missing	Please tell us more	Do you think the masterplan will achieve the vision	Please tell us why	Please share any other comments	Gender	Age	Suburb/Township	Do you currently use the centre	What is the main program/activity that you usually participate in at the Centre?	Do you also participate in other programs/activities at this centre?	Please specify	Officer Response
Online	That the centre hasn't been forgotten.	Yes	As a parent now I believe the communication about this master plan has been very poor with little display. I also notice it came out 2 days before school holidays and cut off time was in school holidays but has since changed. From looking at the poorly designed plan my concerns are as follows. 1.Seating area for café is there sufficient or more room than current kiosk. 2.Is childcare getting in room toilets for children who are toilet training. 3.Car parking spaces for when courts increase. 4.Childcare playground cant see where it has been moved too. 5.No purpose built group fitness room. It would of been advisable to have a bigger plan on display at centre and someone discuss concerns with.	No	Not sure entrance on side is very welcoming, extend entrance at front so it has an impact from street. Make use of land at front of building and build outdoor courts if no money. This whole area could of been a great sporting hub. Glad a centre that hasn't been given a facelift in 45 years is going to change but only hope its suits the whole community.	No Answer	Female	35-44	Greensborough	Yes	Basketball	Basketball Netball Chilcare Other	Kiosk	At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.  Group fitness is provided within the concept plan.  Council officers have met with stakeholders and Clublinks.  Drop in sessions were available.
Online	Good to see Council is trying to create some improvements at the stadium but the masterplan has been very poorly prepared in rough incorrect sketch format with no resemblance to the actual building and conditions	Yes	The plans seem to show some additional courts. But there are no spaces big enough for Clubs or teams to use for functions, meetings , etc. You cant have sporting events without spaces for coaches, referees, players and supporters.	No	The masterplan does not make any sense. How can it cost \$ 54 million dollars for 6 extra courts and no community spaces. Each court would cost about 4 million dollars = \$ 24 million dollars \ What is the other \$ 30 million dollars for ??	Where is the proposed 3 court sports hall being built ?? It looks like the front of the existing building will have to be demolished ?? There is not enough room for 3 extra courts at the front ?? The masterplan does not match the other plans provided by Council ??	Male	55-64	Eltham North	Yes	Basketball	Basketball Netball Squash Badminton Table tennis Dodgeball Health Club membership Group fitness classes Personal training Chil care Virtual fitness Class		The redevelopment costs are based on the concept plan.
Online	That we are actually getting a long over due renovation.	Yes	The masterplan is missing a playground for the childcare. A playground is beneficial to all children with their development and which is something that all parents want. By taking away the playground you are taking away a big point of difference from other childcare centres in the area as well as taking away a big reason why myself and many other parents choose to put our children in this childcare. Another thing that is missing is any evidence that the childcare with receive any improvements at all as the masterplan barely even mentions it. The childcare should be made into a purpose built childcare, not doubling up as the group fitness room in the evening, allowing toys activities to be set up all the time (which allows for the potential to change into a long daycare centre as well). The childcare also is need of in room toilets and additional storage.	Not sure	Unable to tell by the very confusing masterplan drawn up and lack of information of what will happen to each area. For example the childcare whether that will see improvements and if so what improvements and the kiosk area which could have such great potential to be made into more of a "cafe" with people wanting to come for more of a sit down coffee and meal.	The masterplan could have done with a page to each particular area explaining what the vision for that area is. Also a long consulting period with the public would have been appreciated instead of releasing the masterplan the week before school holidays when over the two week school holiday period barely of the patrons that use the centre would be there to have their say.	Prefer n	35-44	Greensborough	Yes	Child care	health club child care		At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.

Submitted	What do you like most about the draft masterplan	Is there anything missing	Please tell us more	Do you think the masterplan will achieve the vision	Please tell us why	Please share any other comments	Gender	Age	Suburb/Township	Do you currently use the centre	What is the main program/activity that you usually participate in at the Centre? Online	It's good to see that the centre is getting a long over due reno and once completed will bring joy to the local community. I've been coming to this centre since I was 7 years old and it is disheartening to see Eltham constantly getting new things and renovations whereas DVSFC has gone with minimal works, although things are in motion it has been such a missed opportunity as it draws in such a big crowd and has such potential	Yes	The extra courts will make it a unique stadium within Victoria if not Australia and it is exciting, my concern is will there be more carpark space added for such an extension? I also have a concern about the childcare. I have a little one on the way and using the childcare at the stadium will be a suitable option for me and my wife, but I do not see a replacement playground for the childcare? My wife and I and firm believers in getting out and playing outside as we have done when we were in childcare, if the alternative is to use the new playground that is getting built across the road then that is a poor option as it will create stress on the staff and is also a big danger to the kids to walk across a road considering they will be less than 5 years old. This will make a huge impact on whether we decide to send our child to the childcare there.	Not sure	If these concerns are extinguished then it will make for an amazing centre, one that will trump Eltham	Please do not get rid of the playground as being active is an integral part of a child's development. Please consider the car parking that will be needed for such an extension	Male	25-34	Eltham North	Yes	Health club membership	Basketball		At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Online	There is finally some action being done about giving DVSFC a renovation which has so much potential compared to giving Eltham Leisure Centre yet another renovation.	Yes	Childcare is missing their playground, no additionally in room toilets or added storage. Cannot tell what improvements will be made to the kiosk, will there be more storage? Will we have room for all our equipment?	Not sure	With such a large extension there seems to be no mention of any additional parking, yet they are building this huge playground across the road from the centre which could have easily be made into car parking instead. There is already such a struggle to find car parks on busy competition days what do you think will happen when we add all these extra courts - where are people meant to park?	There has been no consultation with the staff who actually run the centre on a day to day basis on what is required from a renovation. We are the ones who run the centre when there is no management staff around and we do all the nitty gritty tasks so surely we know what the centre needs and doesn't need. Could have been as simple as having one council member come speak to all staff on one day to discuss our needs and ideas and then speak in consultation meetings on behalf of us. Or even allocating us a spokesperson which we can speak to so we can have our views included as well. Instead of our views being ignored and silenced.	Prefer n	Prefer n	Greensborough	Yes	Group Fitness	Netball Health club membership Group fitness classes Personal Training Child care		At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
Dropbox	Modernisation, appeal, improved accessibility, inclusion, increased capacity, additional courts to meet demand, 24/7 gym, updated kiosk	Yes	additional parking spaces, outdoor play space for child care, new building will need toilets for child care, a desk outside for the kiosk	Yes	If user groups and staff who work in the facility are consulted then the completed centre should cater fully to all groups and the public									At the time of confirmed funding a detailed design process will be undertaken to ensure that the Child care provision meets legislative requirements.
